

WE ARE LOOKING FOR GREAT MINDS.

TDSOFTWARE – Shaping the Digital World!

With everything we do, we aim to design the dynamic digital world.

We are eSIM and Blockchain technology experts and a strategic partner for sustainable digital businesses. Using state-of-the-art technologies, our team is developing visions, thinking of new approaches, creating concepts, implementing digital products, and bringing them to fruition.

Since 2007, we have been developing digital products that revolutionize the world. Creativity, innovation, collaboration, and our agile digital teamwork empowers us to drive purposeful change.

The story began with following the arrival of the first iPhone in 2007.

It not only changed the mobile phone industry forever but was also the beginning of the journey for TDSOFTWARE.

Senior React Native Developer for Mobile Apps (d/f/m)

Part-time / full-time

Professional / Experienced

Jena / Remote within the German Time Zone

As Senior React Native Developer (d/f/m) you would be primarily working on cross platform app development with React Native. Your focus will be on reviewing and implementing technical requirements, as well as to develop, review and implement complex UX and UI. You will extend and improve existing applications and their development approaches. The team that you will be working with consists of experienced Frontend Developers.

We are laying a strong emphasis on the values and principles of agile software development.

You would be working in a self-sufficient, self-motivated and open feedback environment environment.

If you have a passion for React Native and love to work independently in a team with the latest tools and technologies for programming mobile apps, then you are the right fit for us.

Ideally, you've already mastered challenging projects in your career and gained experience that you enjoy sharing in a team setting.

You should be able to work at least 30h/week with us.

Our head office is located in Jena.

We offer the possibility for everyone to work on-site, in a furnished office, or 100% remote.

You just have to make sure you work within the German time zone with a stable Wi-Fi connection.

Our company language is English. Very good English skills are a requirement.

Who we are looking for

- A degree in computer science or comparable education (career changers are welcomed)
- Self-motivated and self-organized
- Strong communication skills
- Open-minded
- A great team player
- An Agile mindset

Must-have Knowledge

- JavaScript
- Node
- Git
- Design patterns (such as MVVM, MVC)
- Sound knowledge of modern user experience (such as Web Apps, Mobile Apps)

Need-to-have Knowledge

- Continuous integration
- Jira, Confluence, Bitbucket or similar (Tools)
- Command line
- Code reviews

Nice-to-have Knowledge

- TypeScript
- Bitrise
- OpenAPI
- Scrum
- Xcode
- iOS code signing & deployment

What you can expect

- You can work at our office in Jena or up to 100% remotely within German office hours
- A multifaceted job in an experienced and ambitious team
- Good opportunities for further training and room for your own ideas
- A relaxed working atmosphere with flat hierarchies
- A workplace in the heart of Jena, equipped with the latest technology

Do you want to start with us? Then send us your application documents now; digitally with your earliest starting date and your salary expectations.

We are actively working on creating a diverse, respectful and safe environment for all of our employees.
